These figures are published as required by section 96, and set as required by section 93, of the Local Government Finance Act 1992. Council Tax is payable by 10 monthly instalments from April to January. You must pay your instalments on or before the 1st of each month or we will start recovery action. We allow time for any payments you make on the 1st of the month to be credited to your account before we start action.

Direct Debit - help us to save money

If you have a regular income, we recommend you pay your instalments by Direct Debit. Paying by Direct Debit can save us on average around 50 pence per payment in charges so it really helps us keep the costs down and makes more money available for other things.

Choose to pay weekly, fortnightly, four weekly or monthly on any day/date to suit you. Spread your payments until March or pay it off sooner if you prefer to have some payment free months.
